

B&H Photo Video - New York, NY

AEIFASTLINKS was contracted by B&H Photo Video to establish a Gigabit Ethernet connection between its sites on opposite sides of West 34th St. in Manhattan. They were in the process of building out a new data center on 420 Ninth Ave. to support their high volume sales and service organization, the center piece being their retail store 440 Ninth Ave. **AEI**FASTLINKS was also contracted to provide ongoing maintenance which includes telephone support, advance, replacement of failed components and on-site service.

The Wireless WAN Pros!

FYI – B&H has the world's most extensive inventory of imaging products with over 130,000 items available for shipment every business day.
