

Bingham McCutchen-Boston, MA

Sullivan & McLaughlin, a large construction contractor had a problem. One of its customer, a nationwide law firm by the name of Bingham McCutchen, had a GigE FSO link between its offices in downtown Boston, that had failed, and no one on staff to support it. **AEI FASTLINKS** was called in to troubleshoot and rectify the issue. As it turned out the day before **AEI** was scheduled to be on-site, a snow storm dumped 12" of snow in Boston. FastLinks still showed up, diagnosed the problem and worked with the manufacturer to resolve the problem.

The Wireless WAN Pros!

FYI – Bingham McCutchen was named by FORTUNE magazine as one of the “100 Best Companies to Work For” in both 2005 & 2006.
