

Application Profile: Kenosha County-Kenosha, WI

AEIFASTLINKS was chosen by the Kenosha County to install a licensed, 23GHz, 100BaseT radio link between its backbone and new Job Center 2.5 miles away. In addition, **AEI** was to install an unlicensed, 10BaseT between the backbone and the County's Human Development Services facility, 2 blocks away. The challenge was to have the links installed within 2 weeks of receiving an order. **AEI** received its order on June 17, 2002 and had both links operational by June 31, 2002.

The Wireless WAN Pros!

FYI – In 2002, CNN and Money Magazine selected Kenosha, WI as the 8th “Best Place to Live” in the US.
