

Application Profile: Norfolk County Registry of Deeds

AEI FASTLINKS was chosen to install a 100BaseTx (100Mbps, full duplex capable) free space optic (FSO) link between the County's facilities in Dedham, MA. The County Commissioner's Office and the Registry of Deeds Building were located on opposite sides of the street about 450' apart. Cabling between the sites was not an option, so they chose to explore a wireless connection. Though bandwidth was not critical, a 100BaseT FSO link was installed for about the same price as a low cost 11Mbps unlicensed RF link.

The Wireless WAN Pros!

FYI – The Registry of Deeds has been a vital component of Norfolk County since 1793, the year the County was created through an act of the legislature signed into law by Governor John Hancock.
