

Thacher, Proffitt & Wood LLP

The law firm of Thacher, Proffitt & Wood LLP was spending close to \$5,000/month a DS3 (45Mbps) leased line between its main office in the Two World Financial Center in lower Manhattan, NY and a remote office in Summit, NJ, 18 miles away. **AEI** was contracted initially to see if establishing a 100BaseTx (100Mbps) wireless connection between the sites was feasible and subsequently to implement the FCC licensed solution (via a repeater site) it recommended. The wireless system not only showed a rapid ROI, it also cut down on the data replication process between the offices that went on every night.
